

How to measure your own DIY kitchen

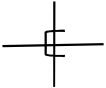

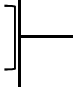

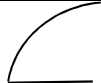

Instructions

1. Make a **sketch** of your kitchen layout
2. Mark on the layout the plug and plumbing points
3. Then measure the walls and window openings and also the measurement from the floor to the bottom of the window sill.
4. Then measure your plug points & plumbing points from the wall.

Use the following symbols to design your layout

 Window	 Plumbing	 Plugs	 Door
---	---	--	--
